PLEASE USE LANDSCAPE MODE WHEN FILMING ON YOUR PHONE

Here are general notes for a successful self tape audition: Please record in the landscape mode when using your phone. Have a plain background and good lighting where your face is evenly lit. We want to see your eyes and expressions. Make sure we can hear you and that your sound quality is good.

DEADLINE IS SATURDAY, 4/25/26 @12pm. PLEASE CONFIRM THAT YOU WILL BE SENDING IN A SELF TAPE.

Don't wait till the last minute, send the tapes in as soon as possible. We are reviewing as we receive them. You'll be uploading to the site. ONLY If you have any trouble please send the self tapes to me via wetransfer or whatever works for you: bobby@5thstreetstudios.net

Here's what we need for your self tape:

SLATE- Please tell us your name, your height and your location and let us know you are available for our shoot in Dallas, TX May 14 as a DALLAS LOCAL HIRE. Then show us a full body shot.

Performance:

There are 2 scripts attached. Please do both!

PARALLEL PARKING - you are playing the DRIVER. You can perform on your own... noticing the women watching you try to park... Don't worry about the Dealer lines or the Women's lines... Performance note: Everyday relatable, not "actor-y handsome". Good with subtle comedy (facial reactions more than dialogue). Needs to sell discomfort without going big or slapstick. Slightly anxious energy, but likable.

PARENTS - you are playing the SON. Give us a nice beat of you enjoying your home on your own again after a long visit from your parents before you answer the door... Don't worry about the dealer lines... but have someone who can read the Mom and Dad lines. Performance note: Strong subtle reactions (the "oh no" does a lot of work). Slightly put-together but not precious. Can play polite + internally panicking

Scripts are attached.
